

Session 1 EXPLO 360° Class Availability

Workshops

Period 1

L [Business + Investments](#)

Take on the world of high finance as you build and manage your own portfolio of stocks.

[Creative Writing](#)

Unleash your imagination to create new characters, build new worlds and develop a unique voice and style that captivates an audience.

[Engineering in Action](#)

Reveal the physics of the world around you by designing, building, and testing ambitious projects that push the limits of your creativity.

L [Entrepreneurship](#)

Build the skills that successful entrepreneurs use to build thriving companies in competitive markets.

[Forensic Science](#)

Step into the shoes of a detective in the field and a forensic scientist in the lab as you investigate a simulated on-campus crime scene.

[Game Theory](#)

Use chance, variance, and good old-fashioned math to gain an upper hand in everything from parlor games to business decisions.

W [Gastronomy: The Art + Science of Cooking](#)

Enter the kitchen laboratory and use chemistry, physics, and imagination to make your own delicious edible creations.

[Government Simulation](#)

Build a nation from scratch and collaborate with your fellow citizens to survive and thrive in this globe-spanning international challenge.

[International Law + Diplomacy](#)

Help shape the world's future as a diplomat, negotiating treaties, responding to crises, and mediating complex disputes with teammates from across the globe.

[Marketing + Advertising](#)

Build your own iconic brand from the ground up inspired by captivating ad campaigns, informed by market research, and motivated by boundless creativity!

[Medicine: First Aid + Clinical Skills](#)

Immerse yourself in the fascinating, high-stakes world of medical practice as you rotate through specialties like cardiology, emergency medicine, and neurology on your daily rounds.

[Neuroscience: Brain Hackers](#)

Decode the mysteries of the brain and discover how neural circuits create thoughts, memories, and behaviors.

[Personality + Behavioral Psychology](#)

Discover the surprising truth about your memory—it may not be as reliable as you think! See how forces in the world around us subtly impact how we see reality.

[Strategy Game Design](#)

Turn your imagination loose to build game worlds and rules, then invite friends to come play!

[Studio Art](#)

Discover your artistic voice in this eclectic studio art class combining different mediums to create powerful and impactful works!

[The Art of Persuasion: Psych Meets Negotiation](#)

Master the skills that get you what you want—whether pitching your million-dollar idea, negotiating your dream job, or convincing your parents to see things your way.

Period 2

W [Aeronautical Engineering](#)

Take to the skies—and learn the secrets of aerodynamics firsthand—by building and launching your own aircraft, from glider prototypes to high-flying rockets.

L [Architecture](#)

Bring your own unique concept for a new building to life with the skills, tools, and techniques of professional architects.

L [Business + Investments](#)

Take on the world of high finance as you build and manage your own portfolio of stocks.

L [Comedy: Improv + Beyond](#)

Being funny is serious business! Develop your own comedic style as you test out your timing and wit on the EXPLO stage.

[Creative Writing](#)

Unleash your imagination to create new characters, build new worlds and develop a unique voice and style that captivates an audience.

[Engineering in Action](#)

Reveal the physics of the world around you by designing, building, and testing ambitious projects that push the limits of your creativity.

W [Entrepreneurship](#)

Build the skills that successful entrepreneurs use to build thriving companies in competitive markets.

[Forensic Science](#)

Step into the shoes of a detective in the field and a forensic scientist in the lab as you investigate a simulated on-campus crime scene.

[Game Theory](#)

Use chance, variance, and good old-fashioned math to gain an upper hand in everything from parlor games to business decisions.

[Government Simulation](#)

Build a nation from scratch and collaborate with your fellow citizens to survive and thrive in this globe-spanning international challenge.

[Graphic Novel](#)

Unleash your visual storytelling powers to create compelling characters, immersive worlds, and dynamic narratives that leap off the page and into readers' imaginations.

[Marketing + Advertising](#)

Build your own iconic brand from the ground up inspired by captivating ad campaigns, informed by market research, and motivated by boundless creativity!

[Medicine: First Aid + Clinical Skills](#)

Immerse yourself in the fascinating, high-stakes world of medical practice as you rotate through specialties like cardiology, emergency medicine, and neurology on your daily rounds.

[Psychopathology](#)

Put psychopathology into action to help patients, identify abnormal behavior, and diagnose mental illnesses.

[The Art of Persuasion: Psych Meets Negotiation](#)

Master the skills that get you what you want—whether pitching your million-dollar idea, negotiating your dream job, or convincing your parents to see things your way.

W [World Cooking](#)

Pack your appetite—we're off to explore traditional foods, cooking techniques, and customs from around the world.

Electives

Week 1

[Broadcast Journalism: Making Content](#)

Step into the newsroom and discover the fast-paced world of television journalism while creating your own news program from the ground up.

[Business Negotiations](#)

Use quick thinking, powerful arguments, and maybe even some subtle manipulation to become a successful, skilled negotiator from the classroom to the boardroom.

[Campside Cooking](#)

Master fire safety, teamwork, and culinary skills in a fun outdoor cooking experience.

[Cardio Kickboxing + Self Defense](#)

Build stamina, strength, and confidence in this fast-paced workout while learning techniques to promote your personal safety.

[Codebreaking + Deductive Reasoning](#)

Put your brain to the test with increasingly complex challenges in deciphering clues, breaking codes, and tackling logic puzzles.

[Cryptography: Secret Codes + Hidden Messages](#)

Step into the shoes of master codebreakers and uncover the fascinating world of cryptography through hands-on code-cracking adventures.

[Dungeons and Dragons](#)

Embark on epic adventures where your imagination shapes entire worlds and your choices determine the fate of kingdoms.

[Emergency Medicine](#)

Gain the skills, techniques, and mindsets that medical pros use to tackle emergency situations head-on and save lives.

[Graffiti Art](#)

Make your mark, spread your message, and bring your own unique styles as you explore the world of graffiti art.

[Jewelry Design](#)

Turn your creativity loose with a collection of tools, materials, and methods as you design and craft your own unique jewelry and accessories!

[Leadership Development](#)

Sharpen your communication skills, tap into creative decision-making, and explore your own values and identity to become a leader who's both effective and true to yourself.

[Murder Mystery](#)

Dive into an immersive crime scenario where the outcome depends on your wits, nerves, and detective skills.

[Parliamentary Debate](#)

Master the art of persuasion and flex your rhetorical muscle in stimulating debates with your classmates.

[Pastry Baking](#)

Bring your appetite, and a sweet tooth, into the EXPLO kitchens as we whip up everyone's favorite meal course: dessert!

[Social Psychology](#)

Discover how society and social norms shape the way people think, act, and see the world around them.

[Volleyball](#)

Fine tune your serving, setting, and spiking skills before taking on the competition in a friendly match.

Week 2

[A cappella!](#)

Experience the thrill of group singing and learn the basics of turning voices into instruments in this fun introduction to a cappella.

[Basketball](#)

Hit three-pointers and master zone defense as you take the EXPLO court.

[Broadcast Journalism: Making Content](#)

Step into the newsroom and discover the fast-paced world of television journalism while creating your own news program from the ground up.

[Business Negotiations](#)

Use quick thinking, powerful arguments, and maybe even some subtle manipulation to become a successful, skilled negotiator from the classroom to the boardroom.

[Campside Cooking](#)

Master fire safety, teamwork, and culinary skills in a fun outdoor cooking experience.

[Candy Cooking](#)

Combine equal parts science, cooking, and art to whip up your own delicious candy treats.

[Dungeons and Dragons](#)

Embark on epic adventures where your imagination shapes entire worlds and your choices determine the fate of kingdoms.

[Fashion Illustration](#)

Use your unique creative vision to develop a portfolio of designs fit for Fashion Week.

[Murder Mystery](#)

Dive into an immersive crime scenario where the outcome depends on your wits, nerves, and detective skills.

[Painting](#)

Brush up on your painting skills and find your own unique style as you play with a wide spectrum of media and techniques.

[Probability in Poker](#)

How can you tell when to raise, call, or fold at the poker table? The laws of probability are the ace up your sleeve!

[Public Speaking](#)

Whether you aspire to become an entertainer, leader, or teacher—or just want to be better at persuading your parents—you can make powerful cases through public speaking.

[Soccer](#)

Hit the pitch, finesse your footwork, sweat a little, and have a blast playing the most popular sport in the world.

[Social Psychology](#)

Discover how society and social norms shape the way people think, act, and see the world around them.

[Wilderness Survival](#)

You're stranded in the wilderness with nothing but the pack on your back! How will you survive and escape?
