## At EXPLO, we do big things

Founded in 1976 as a nonprofit startup out of MIT, EXPLO has brought together over 89,000 students and educators from 101 countries for innovative summer enrichment programs. We are a collaborative community of inventors, entrepreneurs, artists, engineers, and more. We create immersive, boundary-pushing worlds as a setting for learning that inspires lifelong passions.

# Come for the Ultimate Day, or stay for the Sleepaway

Either way, you'll pick new activities each day for a summer to remember.

## 10 choices each weekend

Options have included amusement parks, aquariums, an MLB game, indoor skydiving, and more.

## Making magic for first-time campers

We're here to help ease the transition for first-time Sleepaway campers. You'll be supported as you build more independence here. Stay in a dorm with your new roomie, build friendships with the kids in your living group, get support from two live-in advisors, and pick your daily activities. With almost 50 years experience planning overnight programs, EXPLo takes safety seriously—offering the best staff-student ratio out of any campus-based summer program (1:4) and maintaining a 24/7 health center.
